Introduction

The second edition of French Language Tutorial is a grammar and vocabulary review of the French language with many sample sentences, informal and slang vocabulary, as well as information about French culture for English-speakers living in France. This new edition has been redesigned in an order that encourages progression and repetition of language skills over time. Many of the vocabulary lists include cross-references to similar topics for easier review of previously learned vocabulary.

The first appendix includes extended vocabulary lists that reach beyond introductory or even intermediate French courses, especially with respect to cultural vocabulary specific to certain situations that students or expats in France may experience. The second appendix is an overview of French pronunciation for speakers of American English. An alphabetical index is included after the appendices.

IPA (International Phonetic Alphabet) symbols are used for pronunciation for all of the verb conjugations and the majority of the vocabulary lists. If you do not know the IPA, sample words are provided in English that contain similar sounds, but there are some vowel sounds in French that do not exist in English.

In addition, all of the vocabulary lists, verb conjugations, and sample sentences have been recorded by three native French speakers so that you can listen and read along at the same time. The accompanying mp3s are included in the original product file as a .rar file which can be easily extracted using WinRAR or another program.

Pronunciation Guide for the International Phonetic Alphabet

Below are all of the vowel and consonant symbols used in this book for the French language. Sounds in gray do not exist in English.

English + French Vowels

a	father
e	bait
ɛ	bet
i	she
o	no
ɔ	law
ə	sofa
u	you

French Vowels Only

ɑ	pâte *	long /a/
ø	yeux	rounded /e/
œ	sœur	rounded /ɛ/
y	tu	rounded /i/

Nasal Vowels

ã	dent
ɛ̃	bain
õ	long
œ̃	brun *

Semi-Vowels

ɥ	huit	/y/ + /i/
j	yes	
w	we	

The English vowels /ɪ/ as in did, /ʊ/ as in put, and /æ/ as in bat are not found in native French words. All vowels in French are pure, i.e. they are not diphthongs as in English. The so-called long vowels in English tend to have a second sound, either /j/ or /w/. For example, play is pronounced /plej/ instead of /ple/. Be sure to never pronounce the /j/ or /w/ after pure vowels in French.

The vowel /ɑ/ is not pronounced in all dialects of French, and it is being replaced by /a/. Similarly, the nasal vowel /œ̃/ is being replaced by /ɛ̃/.

Consonants

b	big	m	man	s	sing
d	dog	n	note	ʃ	shy
f	fun	ɲ	canyon	t	train
g	gold	ŋ	parking	v	vase
k	cat	p	poor	z	zebra
l	lose	ʀ	rire	ʒ	genre, measure

The sounds /tʃ/ as in church and /dʒ/ as in judge are not found in native French words. French /ʀ/ is probably the only consonant that will give you much trouble.
